Welcome to Geocaching in Buhler

ALL team members are responsible for finding the 12 caches. Everyone will have a specific job for their team but the goal of the team is to find the geocaches and answer the questions at each location.

Guide: Your job is to read the coordinates to the orienteer. Read them slowly and repeat often. Help your team find each geocache.

Orienteers: Your job is to carry the GPS and lead your group in the right direction. Listen to the advice of your team members.

Recorder: Your job is to record the answers to the questions found in each geocache in the corresponding box on your geocaching table. Write neatly.

Cache Manager: Your job is to open the cache and read the question to the group. You will write the name of your group on the sheet inside each geocache to let others know you have been there. If you are the 12th group to reach the cache, you need to pick up the cache and return it to Mrs. Goertzen or Mrs. Smith.

RULES:

- * If there are only 3 people in your group, then the responsibilities of the recorder and cache manager go to the same person.
- * Switch roles after every cache so everyone gets a chance to experience each job.
- * We do NOT want you to walk along Buhler-Haven Road OR 82nd street (Dutch Avenue)
 - * Even if the coordinates are taking you in those directions, we want you to find another path to reach the coordinate location
 - * Stay safe!
- * The adult you are with is the person in charge. Please remember your manners and be respectful and appreciative.
- * The first team back with all correct answers gets a special prize!
- * Be back at the park ready to eat by 11:30! (Even if you haven't found all of the caches)
